EMPLOYMENT

Université de Sherbrooke

- Teaching Assistant, Department of Mathematics 2024 – Present

EDUCATION

Université de Sherbrooke

- Ph.D. in Mathematics 2024 – Present
 - Research topic: Poisson structures, shifted symplectic geometry, Lie algebroids and groupoids.
 - Supervisor: Pr. [Maxence Mayrand](#)

Sidi Mohamed Ben Abdellah University, Fez, Morocco

- First year in Ph.D., Noncommutative Algebra 2022 – 2023
 - Supervisor: Pr. [Lahcen Oukhtite](#)
- M.Sc. in Mathematics 2020 – 2022
 - Thesis: *Divisors in algebraic geometry, central simple algebras, and Severi–Brauer varieties.*
 - Supervisor: Pr. [Karim Mounirh](#)

Moulay Ismail University, Meknes, Morocco

- B.Sc. in Mathematics 2016 – 2020
 - Thesis: *The spectrum and the Jacobson radical in a commutative ring.*
 - Supervisor: Pr. [Chahrazade Bakkari](#)

PAPERS

POISSON GEOMETRY

- [1] Ait Mohamed Y. and Mayrand M., *Poisson structures on 1-shifted coisotropics*. In progress.

ALGEBRA

- [2] Ait Mohamed Y., *On graded trivial extensions with homogeneous derivations*. Submitted.
- [3] Ait Mohamed Y., *Graded differential polynomial rings*. Submitted.
[arXiv:2606.23352v1](#).
- [4] Ait Mohamed Y., *Generalized homogeneous derivations on graded rings*.
[Siberian Mathematical Journal](#) (to appear).
- [5] Ait Mohamed Y., *On graded rings with homogeneous derivations*.
[Revista de la Unión Matemática Argentina](#).

M.Sc. thesis (Sidi Mohamed Ben Abdellah University, 2022).

Divisors in algebraic geometry, central simple algebras and Severi–Brauer varieties.

RESEARCH GROUP

[SAG](#) | Équipe de recherche en structures algébriques et géométriques à Sherbrooke

SCHOLARSHIPS & AWARDS

Université de Sherbrooke

- ISM Doctoral Scholarship 2026 – 2027
- ISM Doctoral Scholarship 2024 – 2026
- Guaranteed Doctoral Funding 2024 – 2028

Sidi Mohamed Ben Abdellah University

- National Scholarship, Doctoral Degree 2022 – 2023
- National Scholarship, Master's Degree 2020 – 2022

Mouly Ismail University

- National Scholarship, B.Sc. Degree 2016 – 2020

TALKS

- [1] *Poisson structures on 1-shifted coisotropics.* Nov 2025
SAG Seminar, Université de Sherbrooke. [\[Slides\]](#)
- [2] *On bound quivers.* Nov 2024
MAT728 – Selected Topics in Algebra, Université de Sherbrooke.
- [3] *Generalized homogeneous derivations on graded rings.* Jul 2023
Seminar on Noncommutative Algebra, Faculty of Science and Technology, Fez.
- [4] *On graded rings with homogeneous derivations.* Apr 2023
Seminar on Noncommutative Algebra, Faculty of Science and Technology, Fez.
- [5] *On graded rings and derivations.* Feb 2023
Seminar on Noncommutative Algebra, Faculty of Science and Technology, Fez.
- [6] *On graded rings.* Jan 2023
Seminar on Noncommutative Algebra, Faculty of Science and Technology, Fez. [\[Slides\]](#)
- [7] *Tensor algebra and enveloping algebra of a Lie algebra.* Dec 2021
Seminar on Geometry and Algebra, Faculty of Science, Dhar El Mahraz.
- [8] *On the Riemann–Roch theorem.* Nov 2021
Seminar on Geometry and Algebra, Faculty of Science, Dhar El Mahraz. [\[Slides\]](#)
- [9] *Action of a Lie group on a smooth manifold.* Feb 2021
Seminar on Geometry and Algebra, Faculty of Science, Dhar El Mahraz.

TEACHING

Université de Sherbrooke

- Méthodes numériques en algèbre linéaire ([MAT417](#)) Été 2026
- Analyse I ([MAT129](#)) Hiver 2026
- Éléments d'algèbre ([MAT141](#)) Automne 2025
- Algèbre linéaire appliquée en informatique ([MAT199](#)) Automne 2025
- Algèbre linéaire ([MAT253](#)) Hiver 2025
- Calcul différentiel et intégral I ([MAT194](#)) Automne 2024
- Centre d'aide en mathématiques Automne 2024

Mathematics Tutor

2022 – Present

Algebra, real and complex analysis, topology.
