## Appointments

Université de Sherbrooke
Teaching Assistant, Department of Mathematics 2024–present

## Education

Université de Sherbrooke
Ph.D. in Mathematics (Advisor: Maxence Mayrand) 2024–present

Sidi Mohamed Ben Abdellah University
Doctoral studies in Mathematics (Advisor: Lahcen Oukhtite) 2022–2024
M.Sc. in Mathematics 2022

Moulay Ismail University
B.Sc. in Mathematics 2020

## Publications and preprints

Integration and quantization of 1-shifted coisotropics (with M. Mayrand)
arXiv:2610.10151

Group-graded Ore extensions and graded simplicity
arXiv:2609.38131

Graded differential polynomial rings
Math. Nachr., 2026.

Generalized homogeneous derivations on graded rings
Sib. Math. J., to appear. arXiv:2412.17187

On graded rings with homogeneous derivations
Rev. Un. Mat. Argentina, published online 2024.

Divisors in algebraic geometry, central simple algebras and Severi–Brauer varieties (M.Sc. thesis)
Sidi Mohamed Ben Abdellah University, 2022.

## Grants and awards

2024–present ISM Excellence Scholarship (Institut des sciences mathématiques)

## Conference and seminar talks

November 2025 Séminaire SAG, Université de Sherbrooke.
July 2023 Seminar of Noncommutative Algebra, Faculty of Science and Technology, Fez.
April 2023 Seminar of Noncommutative Algebra, Faculty of Science and Technology, Fez.
February 2023 Seminar of Noncommutative Algebra, Faculty of Science and Technology, Fez.
January 2023 Seminar of Noncommutative Algebra, Faculty of Science and Technology, Fez.
December 2021 Seminar of Geometry and Algebra, Faculty of Science Dhar El Mahraz, Fez.

| | | |
|---|---|---|
| | November 2021 | Seminar of Geometry and Algebra, Faculty of Science Dhar El Mahraz, Fez. |
| | February 2021 | Seminar of Geometry and Algebra, Faculty of Science Dhar El Mahraz, Fez. |

**Expository notes**

Extensions d'Ore graduées par un groupe
Note on central simple algebras and the Brauer group
Note on sheaf theory

**Teaching experience**

At the Université de Sherbrooke:

| | |
|---|---|
| 2026–2027 | Linear algebra applied to computer science (MAT199) |
| 2025–2026 | Numerical methods in linear algebra (MAT417) |
| | Analysis I (MAT129) |
| | Elements of algebra (MAT141) |
| | Linear algebra applied to computer science (MAT199) |
| 2024–2025 | Linear algebra (MAT253) |
| | Differential and integral calculus I (MAT194) |
| | Mathematics help centre |

In private schools, Morocco:

| | |
|---|---|
| 2022–2023 | Mini School Center, Fez |
| 2018–2019 | Olympia Centre Zarhounia, Meknès |
| 2017–2018 | Maxcence Centre, Meknès |

Private tutoring:

| | |
|---|---|
| 2022–present | Algebra, real and complex analysis, topology |

**Other activities**

| | |
|---|---|
| 2024–present | Member of the SAG research group. |
| | Developer of Vanolib and VanovaTikZSketch. |
